Question 1 – Total 320

Question 3

Victims age range and gender have been split from each other as by providing all this information together would significantly increase the likelihood of identifying the individual(s) concerned, and as such the exemption under S40(2) – Personal Information, would be engaged and result in information being refused. By splitting this data it can be provided in its entirety.

Please note this is the victim's gender at the time of the crime.
