Result of Searches

Following receipt of your request searches were conducted within Greater Manchester Police (GMP) to locate the requested information and I can confirm the information requested is held by GMP.

Caveats:

In July 2019, GMP implemented one of the largest IT infrastructure changes in UK policing. The systems are in continual development and the data provided for this request is what the systems currently hold.

Crime data

- This data contains crimes with a created date between 1st April 2021 and 31st March 2022 where the Honour Incident qualifier flag is Yes, excluding cancelled crimes and incidents. Further information about cancellations can be obtained from the Home Office Counting Rules.

Victim data

- This data contains victims attached to crimes in the crime data.
- The victim age and gender have been provided. Age has been calculated using the crime committed date and the person date of birth. Please note:
 - The crime committed date may be different to other dates e.g. reported or created.
 - The crime committed date may be recorded as a range where the crime occurred over a period of time or where it is not possible to say exactly when it occurred. In these cases, the first date in the range has been used for the calculation.
 - Age cannot be calculated where the crime committed date and/or person date of birth has not been recorded.
 - The calculated age may be incorrect where the person date of birth has been recorded incorrectly.

Suspect data

- This data contains suspects attached to crimes in the crime data.
- There may be more than one suspect attached to a crime. Suspects may be attached to more than one crime during this time period, which means that the data cannot be used to identify the number of unique suspects. Suspects have been included even if no action has been taken against them e.g. eliminated, insufficient evidence, wanted.
