I write in connection with your request for information dated 02/10/2023, received by Greater Manchester Police (GMP) for the following information:

Can you confirm, are calls from Work Mobile Phones, held by serving GMP Officers, always recorded?

If such calls are not always recorded, the recording being a facility which is manually enabled by the GMP Officer in question, what are the criteria applied by the GMP Officer in deciding whether to record the call or not?

Result of Searches

Following receipt of your request searches were conducted within Greater Manchester Police (GMP) to locate the requested information and I can confirm the information requested is held by GMP.

GMP Mobile calls are not routinely recorded and GMP do not currently offer a facility for officers or staff to record their own calls.
