FREEDOM OF INFORMATION REQUEST REFERENCE NO: 01/FOI/23/011290/G

I write in connection with your request for information dated 06/09/2023, received by Greater Manchester Police (GMP) for the following information:

How many live modern slavery investigations did GMP have in May 2023 and how many are currently underway please?

Result of Searches

Following receipt of your request searches were conducted within Greater Manchester Police (GMP) to locate the requested information and I can confirm the information requested is held by GMP.

However, I am not obliged to provide the information as an exemption applies.

Section 17 of the Freedom of Information Act 2000 requires GMP, when refusing to provide such information (because the information is exempt) to provide you the applicant with a notice which: (a) states that fact, (b) specifies the exemption in question and (c) states (if that would not otherwise be apparent) why the exemption applies.

The exemptions that apply is

Section 30(1)(2)(a) – Investigations and Proceedings Conducted by Public Authorities.

Section 30 is a class based qualified exemption; there is a requirement to carry out a public interest test, which can be seen below.

Factors Favouring Disclosure

To disclose the exempt information, into the public domain, would show GMP's accountability, and satisfy the public, that investigations into such incidents are being conducted correctly. It would also show GMP's use of public funds investigating incidents of this nature.

Factors Favouring Non-Disclosure

Conversely to the factors in favour of disclosure, to publicly release information from an investigation that remains open may seriously undermine GMP's ability to complete the investigation to a full and correct conclusion.

It would also have an impact on the future law enforcement capabilities of GMP, as it would disclose policing investigative techniques, thus hindering any future prevention or detection of crime.

Balancing Test

When balancing the public interest test, GMP has to consider whether the information should be released into the public domain, therefore arguments need to be weighed against each other.

The most persuasive reason for disclosing the information would be the fact that disclosure would encourage transparency. This needs to be weighed against the strongest reason for non-disclosure, which in this case is the impact on GMP's ability to complete investigations to a full and correct conclusion.

Therefore, having considered all the factors for and against disclosure it is the decision at this time to maintain the above exemption and withhold the information from disclosure.
