

Date: 18/04/2024
Our ref: 01/FOI/24/012361/D

FREEDOM OF INFORMATION REQUEST REFERENCE NO: 01/FOI/24/012361/D

I write in connection with your request for information dated 22/04/2024, received by Greater Manchester Police (GMP) for the following information:

We are currently conducting research and require information on incidents occurring within the tunnels associated with Manchester Airport located on the A538 Wilmslow Road.

As part of our inquiry, we are specifically interested in incident records detailing dates, the nature of incidents, actions taken, and any subsequent follow-up procedures.

To facilitate the process and ensure we receive the relevant data efficiently, we would appreciate your assistance in adhering to the following guidelines:

Please provide any incident records related to the Manchester Airport tunnels covering the maximum timeline available or within the scope of your records, excluding any data already available on the CrashMap website, as we have already analysed that information.

I also note your clarification, dated 28/03/2024:

Below are the correct easting and northing values for each tunnel entrance and exit, along with the desired radius for each point:

1. Easting and Northing Values:

- *For Tunnel 1:*

- Entrance: X (Easting): 380771, Y (Northing): 383624
- Exit: X (Easting): 380969, Y (Northing): 383273
- For Tunnel 2:
 - Entrance: X (Easting): 381053, Y (Northing): 383181
 - Exit: X (Easting): 381247, Y (Northing): 383038
- For Tunnel 3:
 - Entrance: X (Easting): 381238, Y (Northing): 383030
 - Exit: X (Easting): 381039, Y (Northing): 383177
- For Tunnel 4:
 - Entrance: X (Easting): 380960, Y (Northing): 383264
 - Exit: X (Easting): 380758, Y (Northing): 383615

2. Desired Radius:

- Please consider a radius of 300 meters from the specified points for each tunnel.

Regarding the points provided above, we could simplify the details by offering two points for each tunnel: one located 300 meters before the entrance, and another located 300 meters after the exit as follow:

Point 1: X (Easting): 380711, Y (Northing): 383806
 Point 2: X (Easting): 381336, Y (Northing): 382982

This approach may help streamline the instructions while still effectively covering the area around each tunnel.

Result of Searches

Following receipt of your request searches were conducted within Greater Manchester Police (GMP) to locate information relevant to your request. I can confirm that the information you have requested is held by GMP.

CAVEATS

In July 2019, GMP implemented one of the largest IT infrastructure changes in UK policing. The systems are in continual development and the data provided for this request is what the systems currently hold.

This data contains incidents with an incident location that falls within 300 metres of the following points, excluding incidents with a closing code of L10 Duplicate, L19 Error or L22 Test or training:

- Easting 380771, Northing 383624
- Easting 380969, Northing 383273
- Easting 381053, Northing 383181
- Easting 381247, Northing 383038
- Easting 381238, Northing 383030
- Easting 381039, Northing 383177
- Easting 380960, Northing 383264
- Easting 380758, Northing 383615

Management of Police Information regulations state that non-essential records should be removed from police systems six financial years after the year in which they were originally

created. This means that data that is more than six financial years old may be incomplete and should not be compared to more recent data.

There can be more than one closing code attached to an incident e.g. there are 2 rows for incident number 6 as there are 2 closing codes attached. For this reason, the number of rows in the below table is not the same as the number of incidents.

Dummy Incident Reference	Incident Created Date : Short Date (MM/YYYY)	Incident Closure Code BK	Incident Closure Code Description
1	09/2019	A03	Alarm - Audible Other (Non-BAURN)
2	10/2022	L20	Contact Record / Message / Information
