I write in connection with your request for information dated 21/07/2024, received by Greater Manchester Police (GMP) for the following information:

Please can you tell me:

(2) For those with neurodiversity issues such as Autism, ADHD, or other mental health issues which could make it more difficult for an individual to either understand the notification requirements or manage their compliance with those notification requirements, what reasonable adjustments are made for them by your force?

Result of Searches

Following receipt of your request searches were conducted within Greater Manchester Police (GMP) to locate the requested information and I can confirm the information requested is not held by GMP.

There is no information held in relation to “reasonable adjustments” however, every sex offender within GMP would have an assessment and from this a tailored risk management plan is created. Each Registered Sex Offender (RSO) has their own tailored/bespoke approach to management.
