FREEDOM OF INFORMATION REQUEST REFERENCE NO: 01/FOI/24/013063/A

I write in connection with your request for information dated 06/08/2024, received by Greater Manchester Police (GMP) for the following information:

I would like to know the number of acid/corrosive attacks that took place as of 29th July 2024 to the date this request is processed.

For each attack, I'd like to know the date of the offence.

I would like to know how many of those victims were from a 'Muslim' background and how many of those attacks were reported as Islamophobic attacks and how many were reported as a hate crime.

Result of Searches

Following receipt of your request searches were conducted within Greater Manchester Police (GMP) to locate the requested information and I can confirm the information requested is held by GMP.

However, due to the way in which the reporting for this type of data is collated, the only way to obtain this is through the ADR for corrosive substance attacks. This is done quarterly with data for July-September 2024 being due at the end of October.

Options available.

- This data is published via the Home Office, so you can search ADR 190 Corrosive Based Offences from November online.
- You can contact our team again from November to re-request the data above and we can be processing this FOI for you.
