

Date: 16/01/2024
Our ref: 01/FOI/23/011841/P

FREEDOM OF INFORMATION REQUEST REFERENCE NO: 01/FOI/23/011841/P

I write in connection with your request for information dated 22/12/2023, received by Greater Manchester Police (GMP) for the following information:

Total crimes broken down by LSOA in the Greater Manchester's police's jurisdiction (2011 census geographies or 2021 census geographies) for 2022/23

Result of Searches

Following receipt of your request searches were conducted within Greater Manchester Police (GMP) to locate the requested information and I can confirm the information requested is held by GMP.

Caveats:

In July 2019, GMP implemented one of the largest IT infrastructure changes in UK policing. The systems are in continual development and the data provided for this request is what the systems currently hold.

- This data contains crimes with a created date between 01/01/22 and 28/12/23, excluding cancelled crimes. Further information about cancelled crimes can be obtained from the Home Office Counting Rules.
- We are aware of various system issues affecting committed at locations for new and migrated. These issues mean that data for a specific location may include crimes that did not happen in that location and/or exclude crimes that did.
 - Some crimes do not have a beat code, which means that they cannot be mapped to other geographies e.g. districts.
 - Some crimes have an incorrect beat code, which means that they are mapped to the wrong geographies.
 - Some crimes do not have an address because e.g. the address has been recorded in a non-standard format or as map coordinates.
- Please note:

- The address recorded may not be where the crime happened e.g. where the crime happened in the street and the address was used as a reference point.
- There may be more than one variation of the same address.
- We are aware of a system issue that allows more than one committed at address to be added to a crime, which is incorrect as stated in the Home Office Counting Rules. This means that some crimes may be double counted within the data if they have multiple addresses with different beats.

Crime : Reported Beat Name	Crime : District Name	Count of Crimes
