FREEDOM OF INFORMATION REQUEST REFERENCE NO: 01/FOI/24/012812/J

I write in connection with your request for information dated 18/06/2024, received by Greater Manchester Police (GMP) for the following information:

Can I please request accused data by ethnicity by broad age category (this can be 16-21, 21 to 26, not entirely sure what the standard categories are for your police district when it comes to this) by crime class?

I would like to collect these numbers for the years of 2001, 2011 and 2021 please.

Clarification - By accused I mean somebody who is marked as a suspect of a crime.

Result of Searches

Following receipt of your request searches were conducted within Greater Manchester Police (GMP) to locate the requested information and I can confirm the information requested is held by GMP.

Caveats:

In July 2019, GMP implemented one of the largest IT infrastructure changes in UK policing. The systems are in continual development and the data provided for this request is what the systems currently hold.

- This data contains crimes with a created year of 2001, 2011, or 2021, where there is an offender linked to the crime, excluding cancelled crimes. Further information about cancelled crimes can be obtained from the Home Office Counting Rules.
- Management of Police Information regulations state that non-essential records should be removed from police systems six financial years after the year in which they were originally created. This means that data that is more than six financial years old may be incomplete and should not be compared to more recent data.
- With effect from April 2013, Action Fraud is responsible for recording all fraud offences.

- With effect from April 2017, burglary is separated into residential burglary and business and community burglary. These categories are not the same as those used before April 2017 (domestic/dwelling and non-domestic/building other than a dwelling), which means that data before and after this date should not be compared.
- Age has been calculated using the crime committed date and the person date of birth. Please note:
 - The crime committed date may be different to other dates e.g. reported or created.
 - The crime committed date may be recorded as a range where the crime occurred over a period of time or where it is not possible to say exactly when it occurred. In these cases, the first date in the range has been used for the calculation.
 - Age cannot be calculated where the crime committed date and/or person date of birth has not been recorded.
 - The calculated age may be incorrect where the person date of birth has been recorded incorrectly.
- There may be more than one suspect attached to a crime e.g. there are 3 rows for crime number 1 as there are 3 suspects attached. For this reason, the number of rows in the spreadsheet is not the same as the number of crimes.
- Suspects have been included even if no action has been taken against them e.g. eliminated, insufficient evidence, wanted.
- There are 124,694 rows of data where the person reference number is missing and so cannot be accurately provided.

Due to some low returned results, some data has been replaced with X and the crime class has been listed separately as by providing all this information as you have requested would significantly increase the likelihood of identifying the individual(s) concerned, and as such the exemption under S40(2) – Personal Information, would be engaged and result in information being refused. By replacing this data in this way, it can be provided in its entirety.

Please see the attached document containing the required information.
