

Date: 28th October 2024
Our ref: FOI/24/013518/K

FREEDOM OF INFORMATION REQUEST REFERENCE NO: FOI/24/013518/K

I write in connection with your request for information dated 23/10/2024, received by Greater Manchester Police (GMP) for the following information:

Please could you give me the number of vehicle accidents for the calender year 2023 to 2024 on the 40mph section of the A5103 Princess Road between the end of the M56 and the start of the 30mph section.

CLARIFICATION

I am actually interested in the length of road covered by the 40mph speed limit. As I can not find anywhere on the internet to indicate exactly where this is I suggest the length between the slip road onto from A5103 the M60 and Merseybank Avenue. Although it would be interesting to know the accident rate going both ways I am principally interested in traffic in the direction of Manchester that is coming from the M56

Result of Searches

Following receipt of your request searches were conducted within Greater Manchester Police (GMP) to locate the requested information and I can confirm the information requested is held by GMP.

GMP's records have been searched for all recorded injury RTC's from January 2023 to prov August 2024 for the stretch of Princess Road between M60 and Merseybank Avenue.

There is a total of 4 collisions recorded. 1 Northbound and 3 Southbound.
