Caveats:

In July 2019, GMP implemented one of the largest IT infrastructure changes in UK policing. The systems are in continual development and the data provided for this request is what the systems currently hold.

- This data is excluding incidents with a closing code of L10 Duplicate, L19 Error or L22 Test or training.
- We are aware of system issues affecting locations for incidents (see below for details). These issues mean that data for a specific location may include incidents that did not happen in that location and/or exclude incidents that did.

- Some incidents do not have an address because e.g. the address has been recorded in a non-standard format or as map coordinates.

Anti-social behaviour has been defined as having one or more of the following closing codes:

- D08 Street Drinking
- D12 Begging/Vagrancy
- D13 Prostitution Related Activity
- D17 Animal Problems
- D50 Malicious/Nuisance Communications
