FREEDOM OF INFORMATION REQUEST REFERENCE NO: 01/FOI/25/013970/V

I write in connection with your request for information dated 13/01/2025, received by Greater Manchester Police (GMP) for the following information:

I would like figures by month, from 1 Jan 2024 to 31 Dec 2024 for the number of reported acts of vehicle vandalism, vehicle interference, vehicle theft, vehicles being broken into at all of the car parks at Manchester airport. A table is required for each and every specific car park. Also the number that have been solved and also the number of prosecutions, successful and unsuccessful.

Result of Searches

Following receipt of your request searches were conducted within Greater Manchester Police (GMP) to locate information relevant to your request. I can confirm that the information you have requested is held by GMP.

CAVEATS

In July 2019, GMP implemented one of the largest IT infrastructure changes in UK policing. The systems are in continual development and the data provided for this request is what the systems currently hold.

This data contains crimes with a created date between 01/01/2024 and 31/12/2024 where the district is 'Manchester Airport' and crime tree level four is "vehicle offences", excluding cancelled crimes. A manual review was then conducted to establish which of the resulting crimes occurred in a car park. Further information about cancelled crimes and the specific types of offences included in the "vehicle offences" category can be obtained from the Home Office Counting Rules.

We are aware of various issues affecting **committed at locations for some crimes on our crime recording system**. These issues mean that data for a specific location may include crimes that did not happen in that location and/or exclude crimes that did.

- Some crimes do not have a beat code, which means that they cannot be mapped to other geographies e.g. districts.
- Some crimes have an incorrect beat code, which means that they are mapped to the wrong geographies.
- Some crimes do not have an address because e.g. the address has been recorded in a non-standard format or as map coordinates.
- The address recorded may not be where the crime happened e.g. where the crime happened in the street and the address was used as a reference point.
- There may be more than one variation of the same address.

To answer your request about how many were solved, I have included the crime outcome for each incident.

Please note that GMP do not hold prosecution data. Please contact His Majesty's Courts and Tribunal Service for this information.

Date	Car park Name	Outcome
Jan 24	Not recorded	Investigation Complete - No Suspect Identified (18)
Jan 24	T3 Multi Storey	Investigation Complete - No Suspect Identified (18)
