

Date: 25/02/2025
Our ref: 01/FOI/25/014287/R

FREEDOM OF INFORMATION REQUEST REFERENCE NO: 01/FOI/25/014287/R

I write in connection with your request for information dated 24/02/2025, received by Greater Manchester Police (GMP) for the following information:

Thank you for your reply regarding my FOI request, reference 01/FOI/25/014073/B.

In light of your guidance, I would like to re-submit my request, requesting the following:

The number of arson offences reported to the service in the past three calendar years (2022, 2023, 2024). Please note that I am referring to Arson Endangering Life (HO code 56A) and Arson Not Endangering Life (HO Code 57B).

Please break the results down by offence code, plus the following:

- *Month and year of the report (e.g. January 2022, February 2022, etc.)*
- *Location (As specific as is reasonably possible)*
- *If the investigation led to an arrest (yes/no/ongoing)*
- *If a suspect was formally charged (yes/no/ongoing)*
- *The age and gender (if known) of the offender*

If there are any issues regarding this amended request, please let me know at the earliest possible opportunity.

Result of Searches

Following receipt of your request searches were conducted within Greater Manchester Police (GMP) to locate the requested information and I can confirm the information requested is held by GMP. However, I am not obliged to provide all the information requested as an exemption applies.

Section 17 of the Freedom of Information Act 2000 requires GMP, when refusing to provide such information (because the information is exempt) to provide you the applicant with a notice which: (a) states that fact, (b) specifies the exemption in question and (c) states (if that would not otherwise be apparent) why the exemption applies.

Information relating to whether the investigation is ongoing or not is exempt under **Section 30(1)(2)(a) – Investigations and Proceedings Conducted by Public Authorities**. Section 30 is a class based qualified exemption; there is a requirement to carry out a public interest test, which can be seen below.

Factors Favouring Disclosure

To disclose the information requested into the public domain would show GMP's accountability and satisfy the public that investigations into arson crimes are being conducted. It would also show GMP's use of public funds in investigating incidents of this nature.

Factors Favouring Non-Disclosure

We accept that there is a legitimate and important public interest in publishing information about arson investigations however, conversely to the factors in favour of disclosure, to publicly release information that is related to investigations that remain ongoing may seriously undermine GMP's ability to complete the investigations to a full and correct conclusion.

Balancing Test

When balancing the public interest test GMP must consider whether the information should be released into the public domain, therefore arguments need to be weighed against each other. The most persuasive reason for disclosing the information would be the fact that disclosure would encourage transparency. This needs to be weighed against the strongest reason for non-disclosure, which in this case is the impact on GMP's ability to complete investigations to a full and correct conclusion. Therefore, having considered all the factors for and against disclosure it is the decision at this time to maintain the above exemption and withhold the information relating to whether the investigations are ongoing or not from disclosure.

The rest of your request is not exempt. It is provided below and is subject to the following caveats:

In July 2019, GMP implemented one of the largest IT infrastructure changes in UK policing. The systems are in continual development and the data provided for this request is what the systems currently hold.

This data contains crimes with a created date between 1st January 2022 and 31st December 2024, where the latest classification is one of the following, excluding cancelled crimes. Further information about cancelled crimes can be obtained from the Home Office Counting Rules.

- 56A Arson Endangering Life
- 56B Arson Not Endangering Life

We have provided the created on month, created on calendar year, location district, whether or not there was an arrest record linked to the crime, if there was at least one suspect attached to the crime with an outcome of 1A 'charged', the age and gender of any suspect attached.
