FREEDOM OF INFORMATION REQUEST REFERENCE NO: 01/FOI/26/016477/Y

I write in connection with your request for information dated 27/02/2026, received by Greater Manchester Police (GMP) for the following information:

I am writing to make a request for information under the Freedom of Information Act 2000.

I would like to request details of crimes recorded within the postcodes BL4 8DF and BL4 8DQ for the past five years (from 27/02/2021 to the present date).

Specifically, I am requesting the following information:

- The location of each recorded crime (for example, street name or anonymised location reference)*
- The type/category of crime recorded*
- The outcome*

I do not require any personal data, names, identifying details of individuals, or case-specific narrative information.

If possible, I would prefer the information in a list format.

If this request exceeds the cost limit under the Act, please advise me as to how it may be refined to fall within the statutory limits.

Result of Searches

Following receipt of your request searches were conducted within Greater Manchester Police (GMP) to locate information relevant to your request. I can confirm that the information you have requested is held by GMP. We are unable to provide details of crimes at the specific

postcodes in your request. This is due to the small number of addresses in these postcodes making it likely that the people involved in any crimes can be identified. We have provided all crimes recorded in the beat area of Kearsley, which covers both of the postcodes in your request.

CAVEATS

In July 2019, GMP implemented one of the largest IT infrastructure changes in UK policing. The systems are in continual development and the data provided for this request is what the systems currently hold.

This data contains crimes within beat code 'K3B2 – Kearsley', with a created date between 27th February 2021 and 1st March 2026 excluding cancelled crimes and crimes classified as fraud. Further information about cancelled crimes can be obtained from the Home Office Counting Rules. Details regarding fraud crime can be obtained by contacting the NFIB.

We are aware of various issues with our crime recording system affecting **committed at locations for new and migrated crimes** (see below for details) These issues mean that data for a specific location may include crimes that did not happen in that location and/or exclude crimes that did.

- Some crimes do not have a beat code, which means that they cannot be mapped to other geographies e.g. districts.
- Some crimes have an incorrect beat code, which means that they are mapped to the wrong geographies.
- Some crimes do not have an address because e.g. the address has been recorded in a non-standard format or as map coordinates.

Dummy Crime Reference	Crime Tree Level Four	Crime Latest Outcome : GMP Outcome Description
1	Public order offences	Investigation Complete - No Suspect Identified (18)
2	Violence without injury	Suspect Identified-Victim Does not Support (16)
3	Violence without injury	Suspect Identified-Victim Does not Support (16)
