FREEDOM OF INFORMATION REQUEST REFERENCE NO: 01/FOI/26/016563/V

I write in connection with your request for information dated 12/03/2026, received by Greater Manchester Police (GMP) for the following information:

Please could you share crime statistics for Rusholme for January 2026?

Result of Searches

Following receipt of your request searches were conducted within Greater Manchester Police (GMP) to locate the requested information and I can confirm the information requested is held by GMP.

Caveats:

In July 2019, GMP implemented one of the largest IT infrastructure changes in UK policing. The systems are in continual development and the data provided for this request is what the systems currently hold.

This data contains crimes within 'A2D1 Rusholme West, A2D2 Victoria Park, A2D3 Birchfields Park, A2D4 Rusholme, A2D5 Rusholme East' and with a created date between 1st January 2026 and 31st January 2026, excluding cancelled crimes and crimes classified as fraud. Further information about cancelled crimes can be obtained from the Home Office Counting Rules. Details regarding fraud crime can be obtained by contacting the NFIB.

- We are aware of various system issues affecting **committed at locations for new and migrated crimes** (see below for details). These issues mean that data for a specific location may include crimes that did not happen in that location and/or exclude crimes that did.
- Some crimes do not have a beat code, which means that they cannot be mapped to other geographies e.g. districts.
- Some crimes have an incorrect beat code, which means that they are mapped to the wrong geographies.
- Some crimes do not have an address because e.g. the address has been recorded in a non-standard format or as map coordinates.

Due to some low results, results have been replaced with X as by providing all this information split by individual offence and location would significantly increase the likelihood of identifying the individual(s) concerned, and as such the exemption under S40(2) – Personal Information, would be engaged and result in information being refused. By replacing the data this way, it can be provided in its entirety.
