Caveats:

In July 2019, GMP implemented one of the largest IT infrastructure changes in UK policing. The systems are in continual development and the data provided for this request is what the systems currently hold.

This data contains incidents with a postcode of 'M1 3LZ' or '27 Sackville' somewhere within the location fields, with a created date between 01/01/2021 and 31/12/2025 were the incident type is one of 'C01', 'C04', 'C06', 'C11', 'C20', 'C21', 'D08', 'D13', 'D50', 'D80', 'D90', 'D92', 'G06', 'G07', 'G16', 'G23', 'C50', 'C51', 'C52', 'C53', 'C54', 'C56', 'C57', 'C58', 'C59', 'G50', 'G82', 'L15', 'L16', 'L17', 'L28', 'L29', 'L35', excluding incidents with a closing code of L10 Duplicate, L19 Error or L22 Test or training.

We are aware of a system issue affecting locations for incidents (see below for details). These issues mean that data for a specific location may include incidents that did not happen in that location and/or exclude incidents that did.

- Some incidents do not have an address because e.g. the address has been recorded in a non-standard format or as map coordinates.

There can be more than one closing code attached to an incident For this reason, the total number incidents may not be the same as the actual number of incidents.
