Caveats

In July 2019, GMP implemented one of the largest IT infrastructure changes in UK policing. The systems are in continual development and the data provided for this request is what the systems currently hold.

- The crime grand total is all the crimes counted based on the HO Crime Code 088/09 as detailed in the HO Codes tab, for the period 01/01/2020-31/12/2025. The data has been broken down by calendar year as per the request.
- The data is based on when the crime was recorded and not when the crime was committed.
- Where possible duplicates have been removed.
- The data provided for this request is subject to change as crimes are progressed and/ or updated.
- In GMP Outcomes-Suspect Status, figures will be crimes that are still open and Offender is either wanted, Locate Trace or Decision is Pending,
- Please note – No data is held relating to How many reports of indecent exposure did GMP receive in 2020-2025? – This is because there are no H/O codes or crime types of options in the recorded incidents data.
