CAVEATS

Caravans and motorhomes are not defined as a separate vehicle category within our collision recording system. Instead, they are grouped under the general category “Other vehicle”, alongside a wide range of unrelated types such as e-scooters, agricultural vehicles and trams. Further identification is only possible if the “other vehicle type” field is completed. However, this field is optional and relies on free-text input, meaning entries can vary significantly (e.g. “motorhome”, “camper van”, “RV”, etc.) or may not be recorded at all.

Where a collision has occurred and the other vehicle type falls into the category requested, I have listed them below.
