**FREEDOM OF INFORMATION REQUEST REFERENCE NO: 01/FOI/26/016106/A**

I write in connection with your request for information dated 06/01/2026, received by Greater Manchester Police (GMP) for the following information:

- 1. I would like to request a full list of crimes reported in Manchester on New Years Eve, December 25 year (2025). If it's possible to include the name of crime, gender of the victim, suspect, ages and the outcome*
- 2. I would like to request the total number of 999 calls made in the Manchester between 6:00 PM on New Year's Eve and 6:00 AM on 1 January 2025.*
- 3. I would like to know how many police officers were on duty in Manchester between on New Year's Eve (31 December). If available, I would also appreciate a breakdown by role or duty type (for example, response officers, neighbourhood policing, or specialist units). If a detailed breakdown is not possible, aggregate totals would be sufficient.*

**Result of Searches**

Following receipt of your request searches were conducted within Greater Manchester Police (GMP) to locate the requested information and I can confirm the information requested is held by GMP. However, I am not obliged to supply you with all the information held as exemptions apply.

Section 17 of the Freedom of Information Act 2000 requires Greater Manchester Police, when refusing to provide such information (because this information is exempt) to provide you, the applicant, with a notice which: (a) states that fact, (b) specifies the exemption in question and (c) states (if that would not otherwise be apparent) why the exemption applies.

The information you have requested in question 3 is exempt from disclosure by virtue of **Section 31(1)(a)(b) – Law Enforcement**. Section 31 is a qualified and prejudice-based exemption and as such, subject to a harm and public interest test.

### **S31(1) - Evidence of Harm**

A Freedom of Information Act request is not a private transaction. Both the request itself and any information disclosed, are considered suitable for open publication. This is because under the Act, any information disclosed is released into the wider public domain, effectively to the world, not just to an individual.

Whilst not questioning the motives of the applicant, providing any further information relating to specific policing operations within Greater Manchester Police would reveal our operational capability, which would be of intelligence value to criminals.

Disclosure of resources at the police's disposal, including resources used for the New Years Eve policing operation will mean that those members of the public who are committing crimes and pose a risk to the public, would be able to formulate ways to circumvent or overwhelm those resources. If disclosed the tactics used by GMP will become less effective and will mean that the police are not able to detect and prevent crime, apprehend, or prosecute offenders or to administer justice for the wider community.

There is always a duty of care to the public, and the Police Service has a clear responsibility to ensure the prevention or detection of crime, and the apprehension or prosecution of offenders is always delivered. There are several tactics available to the Police Service to ensure the effective delivery of operational law enforcement. In this case, specialist policing activity is required to undertake fair investigations where it may be necessary to progress a range of reasonable lines of enquiry.

As such, the disclosure of any further information which would hinder the forces law enforcement functions cannot be in the public interest.

### **Public Interest Test**

Factors favouring disclosure for S31 - Where public funds are being spent, there is a public interest in accountability and justifying the use of public money. Disclosure of the requested information would enable the public to assess whether the force has appropriately taken steps to help reduce and detect crime by such means as answering emergency calls in a timely manner. Release would enhance public debate as to whether the force is appropriately and effectively engaging with the threat posed by criminals.

Factors against disclosure for S31 - Disclosure that reveals our operational capabilities would compromise law enforcement tactics. Criminals could use the information to target areas of perceived weakness in the belief that their activities are less likely to be detected. It may be used by criminals who are intent on pursuing their criminal activity, to identify and exploit the limitations of these resources.

To release information relating to operational capacity and capability utilised for policing New Years Eve festivities would have a detrimental effect on our policing capabilities. Therefore, to mitigate any risks, disclosure of this information needs to be protected, to ensure that those with intent to do so cannot manipulate it or undermine its purpose in any way.

Any disclosure of information which would compromise law enforcement tactics and thus lead to more crime being committed by reducing the opportunity for the prevention and detection of crime, would therefore increase the risk to public safety, which is not in the public interest.

## **Balancing Test**

Law enforcement is of paramount importance, and the Police service will not disclose information if to do so would undermine its purpose and place the safety of individuals at risk. Whilst there is a public interest in the transparency of using public money in policing appropriately and effectively engaging with the threat posed by criminals, there is a very strong public interest in safeguarding the integrity of police operations.

As much as there is public interest in knowing that policing activity is appropriate and balanced in matters of law enforcement, this will only be overridden in exceptional circumstances. Any disclosure which hinders our capability and assists criminals cannot be in the public interest.

It is for these reasons that I have determined that the balance test favours non-disclosure of the requested information.

Questions 1 and 2 are not exempt and are answered below, subject to the following **CAVEATS:**

In July 2019, GMP implemented one of the largest IT infrastructure changes in UK policing. The systems are in continual development and the data provided for this request is what the systems currently hold.

This data contains crimes which were reported on 31<sup>st</sup> December 2025, excluding cancelled crimes and crimes classified as fraud. Further information about cancelled crimes can be obtained from the Home Office Counting Rules. Details regarding fraud crime can be obtained by contacting the NFIB. Please note:

A crime outcome of 'Missing Value' means that the investigation is ongoing, and an outcome has not yet been applied.

Age has been calculated using the crime committed date and the person date of birth. Please note:

- The crime committed date may be different to other dates e.g. reported or created.
- The crime committed date may be recorded as a range where the crime occurred over a period of time or where it is not possible to say exactly when it occurred. In these cases, the first date in the range has been used for the calculation.
- Age cannot be calculated where the crime committed date and/or person date of birth has not been recorded.
- The calculated age may be incorrect where the person date of birth has been recorded incorrectly.

There may be more than one suspect attached to a crime. For this reason, the number of rows in the spreadsheet is not the same as the number of crimes. Suspects may be attached to more than one crime during this time period, which means that the data cannot be used to identify the number of unique suspects.

Suspects have been included even if no action has been taken against them e.g. eliminated, insufficient evidence, wanted
