Question 2

Caveats:

In July 2019, GMP implemented one of the largest IT infrastructure changes in UK policing. The systems are in continual development and the data provided for this request is what the systems currently hold.

- This data contains crimes where the suspect attached is female, the person outcome is outcome 8, and the latest outcome date is between 01/04/2024 and 31/03/2025, excluding cancelled crimes and crimes classified as non-counting fraud. Further information about cancelled crimes can be obtained from the Home Office Counting Rules. Details regarding fraud crime can be obtained by contacting the NFIB.
- The dummy crime reference and dummy person references have been included so the applicant can clearly see where the same suspect may be attached to multiple crimes, or where one suspect may have multiple ethnicities stated on our system.
- The response data does not necessarily include the same individuals as in question 1 as 2 separate searches have to be conducted to provide a response.

Please see the attached spreadsheet noting the above caveats.
