

Date: 8th May 2026
Our ref: FOI/26/016807/W

FREEDOM OF INFORMATION REQUEST REFERENCE NO: FOI/26/016807/W

I write in connection with your request for information dated 01/05/2026, received by Greater Manchester Police (GMP) for the following information:

Recorded crime reports, that do not contain any personal identifiable information (PII) covering the following:

- 1. All recorded crimes within the Greater Manchester Police boundary area***
- 2. Between the dates: 1 February 2026 to 31 April 2026***
- 3. Each incident containing: the date of the incident; crime type; description of the location of the incident; crime type; GMP ward; latitude & longitude where the incident occurred;***
- 4. In a CSV format***

Please let me know if you have any questions or require additional information from me.

Result of Searches

Following receipt of your request searches were conducted within Greater Manchester Police (GMP) to locate the requested information. I can confirm the information requested is held by GMP.

Caveats:

In July 2019, GMP implemented one of the largest IT infrastructure changes in UK policing. The systems are in continual development and the data provided for this request is what the systems currently hold.

- This data contains crimes with a created date between 01/02/2026 and 30/04/2026, where the crime location district is within GMP, or where the district is 'unknown' but we have manually reviewed to only include crime locations within GMP boundaries, excluding cancelled crimes

and crimes classified as non-counting fraud. Further information about cancelled crimes can be obtained from the Home Office Counting Rules. Details regarding fraud crime can be obtained by contacting the NFIB.

- We are aware of various system issues affecting committed at locations for new and migrated crimes (see below for details). These issues mean that data for a specific location may include crimes that did not happen in that location and/or exclude crimes that did.
 - Some crimes do not have a beat code, which means that they cannot be mapped to other geographies e.g. districts.
 - Some crimes have an incorrect beat code, which means that they are mapped to the wrong geographies.
 - Some crimes do not have an address because e.g. the address has been recorded in a non-standard format or as map coordinates.
- Latitude and longitude aren't fields we have on our system therefore we cannot provide this information.

The exact incident/crime date along with a breakdown of crime type and location has been exempted from disclosure under Section 40(2) Personal Information – this information constitutes personal data of an identifiable living individual, and to disclose this information would breach the principles of the General Data Protection Regulation (GDPR) and the Data Protection Act 2018. Personal data is defined by Section 1 of the Data Protection Act 2018 and means data that relates to an individual who can be identified directly or indirectly from that data.

Due to low numbers per beat, totals have been merged together to district level as by providing all this information split by beat as you have requested would significantly increase the likelihood of identifying the individual(s) concerned, and as such the exemption under S40(2) – Personal Information, would be engaged and result in information being refused. By merging this data, it can be provided in its entirety.

Data returned with a total of 5 or below have been replaced with X, as by providing all this information as you have requested would significantly increase the likelihood of identifying the individual(s) concerned, and as such the exemption under S40(2) – Personal Information, would be engaged and result in information being refused. By replacing this data in this way, it can be provided in its entirety.
