Our ref: 01/FOI/26/017539/Z

FREEDOM OF INFORMATION REQUEST REFERENCE NO: 01/FOI/26/017539/Z

I write in connection with your request for information dated 28/08/2026, received by Greater Manchester Police (GMP) for the following information:

I am making a request under the Freedom of Information Act 2000 concerning crime and police demand in the area surrounding postcode M4 1DN, Manchester.
Please provide, for the period 1 January 2022 to the latest complete month available, the following information:
1. The number of recorded crimes occurring within postcode M4 1DN, broken down by calendar month and offence category.
In particular, where available, please separately identify violence against the person, stalking and harassment, robbery, public-order offences, possession of weapons, criminal damage and antisocial behaviour.
2. The number of police incidents/calls for service where the incident location was within M4 1DN, broken down by month.
3. Of those incidents, the number which resulted in a police officer or other police resource being deployed to the area.
4. If held, the incident classifications/categories for those calls for service, with particular reference to violence, threats, harassment, antisocial behaviour, disturbance/public order and weapons.
5. Please provide yearly totals as well as the monthly figures, so that changes between 2022, 2023, 2024, 2025 and 2026 can be compared.
I am requesting aggregate statistical information only. I do not require names, addresses of individual victims, incident narratives or other personal information.
If information cannot appropriately be provided at individual-postcode level because of small-number disclosure concerns or because your systems do not permit retrieval at that level, please instead provide the same information for the smallest standard policing geography, neighbourhood, beat, LSOA or other geographical area covering M4 1DN, and identify the geographical area used.

If any part of this request would exceed the section 12 cost limit, please provide the parts that can be provided within the limit and advise me how the remaining request could reasonably be narrowed.
Electronic data in CSV or Excel format would be preferred.

I also note your clarification, provided on 23rd September that confirmed you are requesting the information for the Northern Quarter beat.

Result of Searches

Following receipt of your request searches were conducted within Greater Manchester Police (GMP) to locate information relevant to your request. I can confirm that the information you have requested is held by GMP.

CAVEATS

In July 2019, GMP implemented one of the largest IT infrastructure changes in UK policing. The systems are in continual development and the data provided for this request is what the systems currently hold.

Due to low numbers being returned for some crimes and incidents, some of the totals have been replaced with X, as by providing exact figures as you have requested would significantly increase the likelihood of identifying the individual(s) concerned, and as such the exemption under S40(2) – Personal Information, would be engaged and result in information being refused. By replacing this data in this way, it can be provided in its entirety.

Crime:

- This data contains crimes with a created date between '01 January 2022' and '31 July 2026', with a reported beat of 'Northern Quarter', excluding cancelled crimes and crimes classified as non-counting fraud. Further information about cancelled crimes can be obtained from the Home Office Counting Rules. Details regarding fraud crime can be obtained by contacting the NFIB.
- Please note, we are aware of various issues with our crime recording system affecting committed at locations for new and migrated crimes (see below for details). These issues mean that data for a specific location may include crimes that did not happen in that location and/or exclude crimes that did.
- Some crimes do not have a beat code, which means that they cannot be mapped to other geographies e.g. districts.
    - Some crimes have an incorrect beat code, which means that they are mapped to the wrong geographies.

Incident:

- This data contains incidents with a created date between '01 January 2022' and '31 July 2026', with an incident beat of 'Northern Quarter', excluding incidents with a closing code of L10 Duplicate, L19 Error or L22 Test or training.
- We are aware of issues with our incident management system affecting locations for incidents. These issues mean that data for a specific location may include incidents that did not happen in that location and/or exclude incidents that did.
- There can be more than one closing code attached to an incident. For this reason, the number of rows in the spreadsheet is not the same as the number of incidents.

- Counts and proportions of incidents with no recorded arrival are presented as a data quality measure. The fact that arrival was not recorded does not necessarily mean that an incident was not attended. Equally, it is not possible to assume that all incidents with no recorded arrival were attended.
