FREEDOM OF INFORMATION REQUEST REFERENCE NO: 01/FOI/26/018017/I

I write in connection with your request for information dated 09/11/2026, received by Greater Manchester Police (GMP) for the following information:

I am requesting crime statistics for the 20 individual districts and wards of the Oldham Metropolitan Borough under the Freedom of Information Act 2000.

I would like a breakdown of recorded anti-social behaviour crime for the 34-month period starting 1 January 2024 to October 31 2026. Where possible, please provide the figures either by individual date, or by individual month, whichever is easier.

Please also provide:
• Any relevant data definitions and classification information.
• Details of any changes in recording practices during the period.
• Confirmation of whether the data is based on crime occurrence date or crime creation/recording date.

Clarification
The footbeat names in the District of 'Oldham' are the areas for which I am requesting data, in the linked document this is from: Coldhurst to Saddleworth West and Lees.

In regard to your second question, I would just like the ASB incident count for each area for the 34-month period starting 1 January 2024 to October 31 2026, providing the data by individual month, where possible.

Result of Searches

Following receipt of your request searches were conducted within Greater Manchester Police to locate information relevant to your request. I can confirm that the information you have requested is held by Greater Manchester Police.

Caveats

In July 2019, GMP implemented one of the largest IT infrastructure changes in UK policing. The systems are in continual development and the data provided for this request is what the systems currently hold.

- This data contains ASB incidents with a created date between 01/01/2024 and 31/10/2026 where the beat is within Oldham, excluding incidents with a closing code of L10 Duplicate, L19 Error or L22 Test or training.

- We are aware of system issues affecting **locations for incidents** (see below for details). These issues mean that data for a specific location may include incidents that did not happen in that location and/or exclude incidents that did.
    - Some incidents do not have an address because e.g. the address has been recorded in a non-standard format or as map coordinates.
