Our ref: 01/FOI/26/017594/G

FREEDOM OF INFORMATION REQUEST REFERENCE NO: 01/FOI/26/017594/G

I write in connection with your request for information dated 04/09/2026, received by Greater Manchester Police (GMP) for the following information:

Please provide, insofar as disclosure is lawful, the number of police-recorded incidents, calls for service or attendances associated with [REDACTED] Hindley Green, Wigan, [REDACTED] [REDACTED] for the following periods:

*1 January 2025 to 15 June 2026, and
16 June 2026 to the date of this request.*

Where possible, I would also be grateful for the incidents to be categorised only by broad type, for example:

- * antisocial behaviour;*
- * public order;*
- * drugs;*
- * violence;*
- * criminal damage;*
- * noise/disturbance;*
- * welfare/safeguarding; or*
- * other.*

I am not requesting the identity of any individual, personal details of any resident, witness or suspect, incident narratives, intelligence, allegations against identifiable individuals, or information concerning the outcome of any individual investigation.

I am seeking statistical information only.

I appreciate that information relating to a specific residential address may engage data-protection or other exemptions. If information at individual-address level cannot lawfully be disclosed, please do not treat that as a reason to refuse the request in its entirety.

In that event, please provide the same information at the smallest geographical level that GMP considers capable of disclosure without identifying individuals, for example the immediate [REDACTED] or another appropriate anonymised geographical area.

If possible, I would also ask that the two time periods remain separate, as the distinction between incidents occurring before and after 15 June 2026 is particularly relevant.

Result of Searches

Following receipt of your request searches were conducted within Greater Manchester Police to locate information relevant to your request.

The information for the specific address:

Greater Manchester Police can neither confirm nor deny that it holds the information you requested as the duty in Section 1(1)(a) of the Freedom of Information Act 2000 does not apply, by virtue of the following exemption:

Section 40(5B)(a)(i) - Personal Information – giving information to a member of the public of the confirmation or denial that would have to be given to comply with section 1(1)(a) would (apart from this Act) contravene any of the principles of the General Data Protection Regulation (GDPR) and the Data Protection Act 2018.

As request, I have provided the following information for Hindley Green.

Caveats

In July 2019, GMP implemented one of the largest IT infrastructure changes in UK policing. The systems are in continual development and the data provided for this request is what the systems currently hold.

- This data contains incidents with a beat of 'Hindley Green' somewhere within the location fields, with a created date between 01/01/2025 and 31/08/2026, excluding incidents with a closing code of L10 Duplicate, L19 Error or L22 Test or training.
- We have counted incidents as attended where the earliest arrival timestamp field is not blank.

- Counts and proportions of incidents with no recorded arrival are presented as a data quality measure. The fact that arrival was not recorded does not necessarily mean that an incident was not attended. Equally, it is not possible to assume that all incidents with no recorded arrival were attended.

Data

The information listed below is exempted from disclosure under **Section 40(2) Personal Information** – this information constitutes personal data of an identifiable living individual, and to disclose this information would breach the principles of the General Data Protection Regulation (GDPR) and the Data Protection Act 2018. Personal data is defined by Section 1 of the Data Protection Act 2018 and means data that relates to an individual who can be identified directly or indirectly from that data.

- The data breakdown in mid-June due to the low results returned – 6 month interval is provided instead
- Any value between 1 and 4 has been marked 'X'

Incident Count	Jan-Jun 25	Jul-Dec 25	Jan-Jun 26	Jul-Aug 26
