FREEDOM OF INFORMATION REQUEST REFERENCE NO: 01/FOI/26/017696/L

I write in connection with your request for information dated 21/09/2026, received by Greater Manchester Police (GMP) for the following information:

I'm looking to number of reported collisions/incidents involving e-bikes, e-scooters and electrically assisted pedal cycles in Greater Manchester from 2023-2026, broken down by injury severity, age, location and whether pedestrian/rider/vehicle involved.

Result of Searches

Following receipt of your request searches were conducted within Greater Manchester Police (GMP) to locate information relevant to your request. I can confirm that the information you have requested is held by GMP.

CAVEATS

Attached is a redacted export of every collision (involving an injury) that has involved one of the vehicles you are interested in.

Please note that e-bikes and electrically assisted pedal cycles are not separately identifiable within the STATS19 vehicle classifications and are recorded as pedal cycles.

Our collision recording system will not allow an export where we can also include all other vehicles involved because this will simply bring out every collision record without being able to cross reference easily.

The attached is not an indication of whether the person was at fault in the collision.

There might be more than one person involved in the collision and the ref number will therefore indicate this.

Only casualties are displayed in the export.

Please see the spreadsheet.
