FREEDOM OF INFORMATION REQUEST REFERENCE NO: 01/FOI/26/017423/O

I write in connection with your request for information dated 10/08/2026, received by Greater Manchester Police (GMP) for the following information:

This is a follow up request from 01/FOI/26/016873/G:

I have completed the latest update on the Police UK crime data for June for InPocketProtect®, and I now require the same data for Manchester and the surrounding areas. Previously, we spoke while you were upgrading your systems; hopefully that went to plan! I require the crimes for the month of June.

Result of Searches

Following receipt of your request searches were conducted within Greater Manchester Police to locate information relevant to your request. I can confirm that the information you have requested is held by Greater Manchester Police.

Caveats

In July 2019, GMP implemented one of the largest IT infrastructure changes in UK policing. The systems are in continual development and the data provided for this request is what the systems currently hold.

This data contains crimes with a created date between '01 June 2026' and '30 June 2026', excluding cancelled crimes and crimes classified as non-counting fraud. Further information about cancelled crimes can be obtained from the Home Office Counting Rules. Details regarding fraud crime can be obtained by contacting the NFIB.

Please note:

A crime outcome of 'Missing Value' means that the investigation is ongoing and an outcome has not yet been applied.

- There are duplicate crime reference numbers within this dataset, this is due to duplicate entries in the location fields (e.g. street name and postcode) and is reflected in the crime reference numbers.
- We are aware of various system issues affecting committed at locations for new and migrated crimes (see below for details). These issues mean that data for a specific location may include crimes that did not happen in that location and/or exclude crimes that did.
 - Some crimes do not have a beat code, which means that they cannot be mapped to other geographies e.g. districts.
 - Some crimes have an incorrect beat code, which means that they are mapped to the wrong geographies.
 - Some crimes do not have an address because e.g. the address has been recorded in a non-standard format or as map coordinates.
- Please note:
 - The address recorded may not be where the crime happened e.g. where the crime happened in the street and the address was used as a reference point.
 - There may be more than one variation of the same address.

Due to the low numbers returned for the below offence the district breakdown has been removed as by providing this information split by district would significantly increase the likelihood of identifying the individual(s) concerned, and as such the exemption under S40(2) – Personal Information, would be engaged and result in information being refused.

Offence	Total
Death or serious injury caused by unlawful driving	3

Due to low numbers being returned (less than 5), some of the totals in the below table have been replaced with X, as by providing this information would significantly increase the likelihood of identifying the individual(s) concerned, and as such the exemption under S40(2) – Personal Information, would be engaged and result in information being refused. By replacing this data in this way, it can be provided in its entirety.

Due to the short timeframe and low numbers returned per beat, the data has been merged together into district level as by providing all this information split by beat, offence and outcome as you have requested would significantly increase the likelihood of identifying the individual(s) concerned, and as such the exemption under S40(2) – Personal Information, would be engaged and result in information being refused. By merging this data it can be provided in its entirety.

Please see the below tables for offence and outcome data.
