FREEDOM OF INFORMATION REQUEST REFERENCE NO: 01/FOI/26/017549/B

I write in connection with your request for information dated 31/08/2026, received by Greater Manchester Police (GMP) for the following information:

Could i please request the crime rates for the Rusholme area from the 1st of august 2026 till the 31st of august 2026

Result of Searches

Following receipt of your request searches were conducted within Greater Manchester Police to locate information relevant to your request. I can confirm that the information you have requested is held by Greater Manchester Police.

Caveats

In July 2019, GMP implemented one of the largest IT infrastructure changes in UK policing. The systems are in continual development and the data provided for this request is what the systems currently hold.

This data contains crimes within 'Rusholme' with a created date between 1st August 2026 and 31st August 2026, excluding cancelled crimes and crimes classified as fraud. Further information about cancelled crimes can be obtained from the Home Office Counting Rules. Details regarding fraud crime can be obtained by contacting the NFIB.

- We are aware of various system issues affecting committed at locations for new and migrated crimes (see below for details) These issues mean that data for a specific location may include crimes that did not happen in that location and/or exclude crimes that did.
 - Some crimes do not have a beat code, which means that they cannot be mapped to other geographies e.g. districts.
 - Some crimes have an incorrect beat code, which means that they are mapped to the wrong geographies.

Any value between 1 and 4 has been marked 'X' as exempted from disclosure under Section 40(2) Personal Information – this information constitutes personal data of an identifiable living individual, and to disclose this information would breach the principles of the General Data Protection Regulation (GDPR) and the Data Protection Act 2018. Personal data is defined by Section 1 of the Data Protection Act 2018 and means data that relates to an individual who can be identified directly or indirectly from that data.
